DANIEL NZUBENNA ORJI

Lagos, Nigeria • 07045737995 • danielorji050@gmail.com
LinkedIn Profile • Project: CU Business Website

PROFESSIONAL SUMMARY

Detail-oriented and motivated professional with hands-on experience in logistics operations, customer service and a growing foundation in web development and computer science. Adept at managing the movement of goods and delivering reliable service, while simultaneously developing technical skills in front-end development and software. Currently pursuing a Bachelor's degree in Computer Science with a passion for building practical digital solutions.

SKILLS

Productivity	Microsoft Excel (Proficient), Microsoft Word (Proficient)
Web Development	HTML (Proficient), CSS (Proficient), JavaScript (Intermediate)
Programming	Python (Beginner)
Design	Adobe Photoshop (Basic), CapCut (Video & Image Editing), InShot (Video & Image Editing)

WORK EXPERIENCE

Delivery Personnel/Customer Service Support | CU Business Logistics Services — Lagos Branch | *January 2024 – December 2024*

- Coordinated the sending and receiving of products and goods designated for export, ensuring accurate handling and timely dispatch.
- Handled a mix of delivery delays, order tracking, and general complaints via WhatsApp and live chat
- Resolved customer issues in real-time chat conversations rather than slow email back-and-forth
- Communicated delivery updates and delay explanations directly to customers over WhatsApp
- Maintained accurate records of inbound and outbound deliveries, reducing discrepancies in package tracking.
- Liaised with clients and warehouse staff to confirm delivery schedules and resolve logistical issues promptly.

Achievement: Demonstrated reliability and operational efficiency throughout the role, earning trust from branch management — evidenced by a direct referral from the Lagos Branch Manager.

Freelance Frontend Developer/Web Designer/Video Editor | December 2024 - Present

- Designed website interface in Figma before development begin
- Translated Figma designs into functional HTML/CSS/JS code

- Used Git and GitHub for version control
- Edited 30+ short-form videos for a joint TikTok content account using CapCut

PROJECTS

CU Business Logistics Services — Company Website

https://danj0n3s.github.io/CU-Business/index.html

- Independently designed and developed a fully functional website for CU Business Logistics Services using HTML and CSS.
- Delivered a professional web presence for the company, demonstrating initiative beyond core job responsibilities.
